

Riley Flooring Limited

Company Environmental Policy Statement

This policy applies to all activities undertaken by Riley Flooring Limited. We will aim to reduce our environmental impact of:

- Purchasing of goods and services by specifying products and materials that are manufactured and distributed by environmentally compliant suppliers and encourage the use of durable products that require less maintenance and replacement.
- Waste generation by ensuring surplus materials are re-used or recycled wherever possible and disposed of responsibly. Our office and warehouse staff are encouraged to recycle wherever possible.
- Transport and travel by encouraging green travel plans in both commuting and business journeys and minimising any unnecessary travel.
- Energy and water consumption by switching off any unnecessary electrical equipment, heating, air conditioning and lighting when not in use and using low energy lighting wherever possible. Water is not left running unnecessarily.

Riley Flooring Limited will work towards these aims by:

- Educating, training and raising awareness of environmental issues amongst staff and members of the public and encourage their involvement wherever possible.
- Raising awareness of environmental issues with our contractors and suppliers and encouraging them to work towards similar environmental standards.
- Minimising the risk of environmental damage by assessing new and existing policies, activities and practices for their environmental effects and by adopting safe technologies and operating procedures.
- Setting objectives, targets and reviewing the environmental policy for continual improvement of our environmental impact.
- Fully comply with environmental legislation, regulations and codes of practice.
- Taking all reasonable steps to comply with recognised best practice for activities and services that result in significant environmental impacts.
